Notwithstanding anything to the contrary contained in this Agreement, but subject to the provisions of Clause 35.3, any Termination pursuant to the provisions of this Agreement shall be without prejudice to the accrued rights of either Party including its right to claim and recover money damages, insurance proceeds, security deposits, and other rights and remedies, which it may have in law or contract. All rights and obligations of either Party under this Agreement, including termination payments and Divestment Requirements, shall survive the Termination to the extent such survival is necessary for giving effect to such rights and obligations.

- (e) transfer and deliver all Applicable Permits to the extent permissible under Applicable Laws;
- (f) execute such deeds of conveyance, documents and other writings as the Authority may require for conveying, divesting and assigning all the rights, title and interest of the Concessionaire in the Project Assets, including manufacturers' warranties in respect of any plant or equipment and the right to receive outstanding insurance claims to the extent due and payable to the Authority, absolutely unto the Authority or its nominee; and
- (g) comply with all other requirements as may be prescribed or required under Applicable Laws for completing the divestment and assignment of all rights, title and interest of the Concessionaire in the Airport, free from all Encumbrances, absolutely unto the Authority or to its nominee.

36.1.2 Subject to the exercise by the Authority of its rights under this Agreement or under any of the Project Agreements to perform or procure the performance by a third party of any of the obligations of the Concessionaire, the Parties shall continue to perform their obligations under this Agreement, notwithstanding the issuance of any Termination Notice, until the Termination of this Agreement becomes effective in accordance with its terms.

36.2 Inspection and cure

Not earlier than 90 (ninety) days prior to Termination but not later than 15 (fifteen) days prior to the effective date of such Termination, the Authority or any of its nominee shall verify, after giving due notice to the Concessionaire specifying the time, date and place of such verification and/or inspection, compliance by the Concessionaire with the terms of this Agreement, and if required, cause appropriate tests to be carried out at the Concessionaire's cost for this purpose. Defaults, if any, shall be cured by the Concessionaire at its cost and the provisions of Article 37

The Concessionaire shall further provide such reasonable advice and assistance as the Authority, its concessionaire or agent may reasonably require for operation of the Project until the expiry of 6 (six) months after the Transfer Date.

36.3.3 The Authority shall have the option to purchase or hire from the Concessionaire at a fair market value and free from any Encumbrance all or any part of the plant and machinery used in connection with the Project but which does not form part of the Project Assets specified in Clause 36.1.1 and is reasonably required in connection with operation of the Project.

36.4 Vesting Certificate

The divestment of all rights, title and interest in the Airport shall be deemed to be complete on the date when all of the Divestment Requirements have been fulfilled, and the Authority shall, without unreasonable delay, thereupon issue a certificate substantially in the form set forth in Schedule O (“**Vesting Certificate**”), which will have the effect of constituting evidence of divestment by the Concessionaire of all of its rights, title and interest in the Airport, and their vesting in the Authority pursuant hereto. It is expressly agreed that any defect or deficiency in the Divestment Requirements shall not in any manner be construed or interpreted as restricting the exercise of any rights by the Authority or its nominee on, or in respect of, the Airport on the footing that all Divestment Requirements have been complied with by the Concessionaire.

36.5 Divestment costs, etc.

36.5.1 The Concessionaire shall bear and pay all costs incidental to divestment of all of the rights, title and interest of the Concessionaire in the Project Assets in favour of the Authority upon Termination, including all stamp duties payable on any deeds or Documents executed by the Concessionaire in connection with such divestment.

If the Concessionaire fails to repair or rectify such defect or deficiency within a period of 15 (fifteen) days from the date of notice issued by the Authority in this behalf, the Authority shall be entitled to get the same repaired or rectified at the Concessionaire's risk and cost so as to make the Airport conform to the Key Performance Indicators and the terms of this Agreement. All costs incurred by the Authority hereunder shall be reimbursed by the Concessionaire to the Authority within 15 (fifteen) days of receipt of demand thereof, and in the event of default in reimbursing such costs, the Authority shall be entitled to recover the same from the funds retained in the Escrow Account under the provisions of Clause 37.2 or from the Performance Guarantee provided hereunder.

- 37.2.1 Notwithstanding anything to the contrary contained in this Agreement, but subject to the provisions of Clause 37.2.3, a sum equal to 5% (five percent) of the total pre-tax gross revenues of the Concessionaire as per its audited books of accounts for the Accounting Year immediately preceding the Transfer Date shall be retained in the Escrow Account for a period of 120 (one hundred and twenty) days after Termination for meeting the liabilities, if any, arising out of or in connection with the provisions of Clause 35.
- 37.2.2 Without prejudice to the provisions of Clause 37.2.1, the Authority on its own, or through its nominee, shall carry out an inspection of the Airport at any time between 210 (two hundred and ten) and 180 (one hundred and eighty) days, prior to the Termination, and if it recommends that the status of the Airport is such that a sum larger than the amount stipulated in Clause 37.2.1 should be retained in the Escrow Account and for a period longer than the aforesaid 120 (one hundred and twenty) days, the amount recommended by the Authority or the Independent Engineer shall be retained in the Escrow Account for the period specified by it.
- 37.2.3 The Concessionaire may, for the performance of its obligations under this Article 37, provide to the Authority a guarantee from a Bank for a sum equivalent to the amount determined under Clause 37.2.1 or Clause 37.2.2, as the case may be, and for the period specified therein, substantially in the form set forth in Schedule E ("**Performance Guarantee**"), to be modified, *mutatis mutandis*, for this purpose, and the Authority shall, without prejudice to its other rights and remedies hereunder or in law, be entitled to encash and appropriate the required amounts from the Performance Guarantee for undertaking the repairs or rectification at the Concessionaire's risk and cost in accordance with the provisions of this Article 37. Upon furnishing of a Performance Guarantee under this Clause 37.2.3, the retention of funds in the Escrow Account in terms of Clause 37.2.1 or Clause 37.2.2, as the case may be, shall be dispensed with.

Part VI

38.3 Substitution Agreement

- 38.3.1 The Lenders' Representative, on behalf of Senior Lenders, may exercise the right to substitute the Concessionaire pursuant to the agreement for substitution of the Concessionaire ("**Substitution Agreement**"). It is clarified that the Substitution Agreement is to be entered into at such time as may be requested by the Concessionaire, and will be entered into amongst the Concessionaire, the Authority and the Lenders' Representative, on behalf of Senior Lenders, substantially in the form set forth in Schedule P. *Provided however that*, if the Senior Lenders, acting through the Lenders' Representative, are not able to identify or substitute the Concessionaire with any Nominated Company, in accordance with the terms of the Substitution Agreement, then, the Authority shall have a right to substitute the Concessionaire, in such a manner that the Authority is a Nominated Company for the purposes of the Substitution Agreement, and any reference to the Nominated Company shall mean the Authority and all other terms and conditions of the Substitution Agreement shall be construed accordingly.
- 38.3.2 Upon substitution of the Concessionaire under and in accordance with the Substitution Agreement, the Nominated Company substituting the Concessionaire shall be deemed to be the Concessionaire under this Agreement and shall enjoy all rights and be responsible for all obligations of the Concessionaire under this Agreement as if it were the Concessionaire, provided that where the Concessionaire is in breach of this Agreement on the date of such substitution, the Authority shall by notice grant a Cure Period of 120 (one hundred and twenty) days to the Concessionaire for curing such breach.

- 38.5.1 In the event of an emergency (as communicated by the Authority, in writing, at its sole discretion), the Authority has the right to temporarily assume control of the Airport in place of the Concessionaire, either through itself or any nominated Government Instrumentality. During the period in which the control over the Airport is assumed by the Authority or the nominated Government Instrumentality, the Authority shall be deemed to be the Concessionaire for the purpose of discharging the obligations of the Concessionaire under this Agreement for that limited period. The duties and obligations of the Concessionaire shall be suspended during such period and the Authority or its nominated Government Instrumentality shall operate and maintain the Airport in accordance with the provisions of this Agreement. Provided however, within 7 (seven) days of cessation of the aforesaid emergency and any effect thereof, or such longer time-period as may be reasonable taking into account the nature of emergency, the Authority or its nominated Government Instrumentality, as the case may be, shall hand the Airport (as it stands on that date) back to the Concessionaire, to operate and manage the same in accordance with the terms and conditions set out herein.

- 39.2 If such third party determines that the change will cause a Material Adverse Effect on the Concessionaire as aforesaid, the Parties shall meet to discuss and agree upon amendments to this Agreement so as to place the Concessionaire in the same financial position as it would have enjoyed had there been no such change. In the event that no such agreement is reached within 30 (thirty) days of the Parties meeting, Concessionaire shall, at its sole discretion, be permitted to terminate this Agreement by giving a notice of 30 (thirty) days.
- 39.3 Upon such Termination, the Authority shall be liable to pay to the Concessionaire an amount equal to 70% (seventy percent) of the Termination Payment.

40.1.1 The Concessionaire shall indemnify, defend, save and hold harmless the Authority and its officers, servants, agents, Government Instrumentalities, Designated GOI Agencies and Authority owned and/or controlled entities/enterprises, (“**Government Indemnified Persons**”) against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature, whether arising out of any breach by the Concessionaire of any of its obligations under this Agreement or any related agreement or on account of any defect or deficiency in the performance of the obligations by the Concessionaire or from any negligence of the Concessionaire under contract or tort, or on the ground of fraud or negligence, or on any other ground whatsoever, except to the extent that any such suits, proceedings, actions, demands and claims have arisen due to any wilful negligent act or omission, or breach or default of this Agreement on the part of the Government Indemnified Persons.

40.1.2 Subject to Clause 10.3.6, the Authority shall indemnify, defend, save and hold harmless the Concessionaire against any and all suits, proceedings, actions, demands and claims from third parties for any loss, damage, cost and expense of whatever kind and nature arising out of (a) defect in title and/or the rights of the Authority in the land comprised in the Site, and/or (b) breach by the Authority of any of its obligations under this Agreement or any related agreement, which materially and adversely affect the performance by the Concessionaire of its obligations under this Agreement, save and except that where any such claim, suit, proceeding, action, and/or demand has arisen due to a negligent act or omission, or breach of any of its obligations under any provision of this Agreement or any related agreement and/or breach of statutory duty on the part of the Concessionaire, its subsidiaries, affiliates, contractors, servants or agents, the same shall be the liability of the Concessionaire.

40.2 Indemnity by the Concessionaire

40.2.1 Without limiting the generality of Article 37, the Concessionaire shall fully indemnify, hold harmless and defend the Authority and the Government Indemnified Persons from and against any and all loss and/or damages arising out of or with respect to:

- (a) failure of the Concessionaire to comply with Applicable Laws and Applicable Permits;

40.2.2 Without limiting the generality of the provisions of this Article 40, the Concessionaire shall fully indemnify, hold harmless and defend the Government Indemnified Persons from and against any and all suits, proceedings, actions, claims, demands, liabilities and damages which the Government Indemnified Persons may hereafter suffer, or pay by reason of any demands, claims, suits or proceedings arising out of claims of infringement of any domestic or foreign patent rights, copyrights or other intellectual property, proprietary or confidentiality rights with respect to any materials, information, design or process used by the Concessionaire or by the Contractors in performing the Concessionaire’s obligations or in any way incorporated in or related to the Project. If in any such suit, action, claim or proceedings, a temporary restraint order or preliminary injunction is granted, the Concessionaire shall make every reasonable effort, by giving a satisfactory bond or otherwise, to secure the revocation or suspension of the

injunction or restraint order. If, in any such suit, action, claim or proceedings, the Airport, or any part thereof or comprised therein, is held to constitute an infringement and its use is permanently enjoined, the Concessionaire shall promptly make every reasonable effort to secure for the Authority a license, at no cost to the Authority, authorising continued use of the infringing work. If the Concessionaire is unable to secure such license within the prescribed time, the Concessionaire shall, at its own expense, and without impairing the Specifications and Standards, either replace the affected work, or part, or process thereof with non-infringing work or part or process, or modify the same so that it becomes non-infringing.

40.3 Notice and contest of claims

In the event that either Party receives a claim or demand from a third party in respect of which it is entitled to the benefit of an indemnity under this Article 40 (“**Indemnified Party**”), it shall notify the other Party (“**Indemnifying Party**”) within 15 (fifteen) days of receipt of the claim or demand and shall not settle or pay the claim without the prior approval of the Indemnifying Party, which approval shall not be unreasonably withheld or delayed. In the event that the Indemnifying Party wishes to contest or dispute the claim or demand, it may conduct the proceedings in the name of the Indemnified Party, subject to the Indemnified Party being secured against any costs involved, to its reasonable satisfaction.

40.4 Defence of claims

40.4.1 The Indemnified Party has the right, but not the obligation, to contest, defend and litigate any claim, action, suit or proceeding by any third party alleged or asserted against such Party in respect of, resulting from, related to or arising out of any matter for which it is entitled to be indemnified hereunder, and reasonable costs and expenses thereof shall be indemnified by the Indemnifying Party. If the Indemnifying Party acknowledges in writing its obligation to indemnify the Indemnified Party in respect of loss to the full extent provided by this Article 40, the Indemnifying Party shall be entitled, at its option, to assume and control the defence of such claim, action, suit or proceeding, liabilities, payments and obligations at its expense and through the counsel of its choice in the name of the Indemnified Party, if so required, provided it gives prompt notice of its intention to do so to the Indemnified Party and reimburses the Indemnified Party for the reasonable cost and expenses incurred by the Indemnified Party prior to the assumption by the Indemnifying Party of such defence. The Indemnifying Party shall not be entitled to settle or compromise any claim, demand, action, suit or proceeding without the prior written consent of the Indemnified Party, unless the Indemnifying Party provides such security to the Indemnified Party as shall be reasonably required by the Indemnified Party to secure the loss to be indemnified hereunder to the extent so compromised or settled.

40.4.2 If the Indemnifying Party has exercised its rights under Clause 40.3, the Indemnified Party shall not be entitled to settle or compromise any claim, action, suit or proceeding without the prior written consent of the Indemnifying Party (which consent shall not be unreasonably withheld or delayed).

40.4.3 If the Indemnifying Party exercises its rights under Clause 40.3, the Indemnified Party shall nevertheless have the right to employ its own counsel, and such counsel may participate in such action, but the fees and expenses of such counsel shall be at the expense of the Indemnified Party, when and as incurred, unless:

- (a) the employment of counsel by such party has been authorised in writing by the Indemnifying Party;
- (b) the Indemnified Party shall have reasonably concluded that there may be a conflict of interest between the Indemnifying Party and the Indemnified Party in the conduct of the defence of such action;

- (c) the Indemnifying Party shall not, in fact, have employed independent counsel reasonably satisfactory to the Indemnified Party, to assume the defence of such action and shall have been so notified by the Indemnified Party; or
- (d) the Indemnified Party shall have reasonably concluded and specifically notified the Indemnifying Party either:
 - (i) that there may be specific defences available to it which are different from or additional to those available to the Indemnifying Party; or
 - (ii) that such claim, action, suit or proceeding involves or could have a Material Adverse Effect upon it beyond the scope of this Agreement:

Provided that if Sub-Clauses (b), (c) or (d) of this Clause 40.4.3 shall be applicable, the counsel for the Indemnified Party has the right to direct the defence of such claim, demand, action, suit or proceeding on behalf of the Indemnified Party, and the reasonable fees and disbursements of such counsel shall constitute legal or other expenses hereunder.

40.5 No consequential claims

Notwithstanding anything to the contrary contained in this Article 40, the indemnities herein provided shall not include any claim or recovery in respect of any cost, expense, loss or damage of an indirect, incidental or consequential nature, including loss of profit, except as expressly provided in this Agreement.

41.2 Conciliation

In the event of any Dispute between the Parties, either Party may call upon the Independent Engineer during the Development Period and an industry expert during the Concession Period, to mediate and assist the Parties in arriving at an amicable settlement thereof. Failing mediation by the Independent Engineer or the industry expert, as the case may be, or without the intervention of the Independent Engineer or such industry expert, either Party may require such Dispute to be referred to the Managing Director of the Authority and the Chairman of the Board of Directors of the Concessionaire for amicable settlement, and upon such reference, the said persons shall meet no later than 7 (seven) days from the date of reference to discuss and attempt to amicably resolve the Dispute. If such meeting does not take place within the 7 (seven) day period or the Dispute is not amicably settled within 15 (fifteen) days of the meeting or the Dispute is not resolved as evidenced by the signing of written terms of settlement within 30 (thirty) days of the notice in writing referred to in Clause 41.1.1 or such longer period as may be mutually agreed by the Parties, either Party may refer the Dispute to arbitration in accordance with the provisions of Clause 41.3.

- 41.3.3 The arbitral tribunal shall make a reasoned award (“**Award**”). Any Award made in any arbitration held pursuant to this Article 41 shall be final and binding on the Parties as from the date it is made, and the Concessionaire and the Authority agree and undertake to carry out such Award without delay.
- 41.3.4 The Concessionaire and the Authority agree that an Award may be enforced against the Concessionaire and/or the Authority, as the case may be, and their respective assets wherever situated.

41.3.5 This Agreement and the rights and obligations of the Parties shall remain in full force and effect, pending the Award in any arbitration proceedings hereunder.

41.4 **Adjudication by a Tribunal**

Notwithstanding anything contained contrary elsewhere in this Article 41, in the event of constitution of a statutory tribunal or other forum with powers to adjudicate upon disputes between the Concessionaire and the Authority in specific or otherwise for dealing with disputes arising out of public private partnership framework or otherwise, all Disputes arising after such constitution shall, instead of reference to arbitration under Clause 41.3, be adjudicated upon by such tribunal or other forum in accordance with Applicable Laws and all references to Dispute Resolution Procedure shall be construed accordingly.

SCHEDULE B

DEVELOPMENT OF THE AIRPORT

(See Clause 2.1)

1. Development of the Airport

The planning approach to be used to facilitate the achievement of a well-developed Airport should be to establish airside, terminal development and other facility requirements on the basis of forecasted future traffic for various Phases. Facility requirements should be the outcome of the application of technical and service level standards to the relevant forecast data throughout the planning period to ensure that sufficient facilities are available to accommodate the forecast traffic volumes from the COD of the Airport till the end of the Concession Period

The most important systems that affect overall airport capacity and level of service to users are the Runway/ taxiway system and the passenger Terminal Building (and the domestic and international split), as well as the number of apron stands and contact gates. The development of the Airport in Phases shall be as per provisions mentioned in Schedule A.

In addition, regular investments are needed to periodically maintain and upgrade the facilities, replace equipment and meet other requirements in order to ensure the Airport infrastructure caters to the projected traffic meeting the service level standards prescribed in this Agreement.

2. Development Philosophy

The purpose of any planning effort is to determine the facilities required to support a forecast demand, with the near-term planning being used as means of identifying the initial development required. However, it is also imperative the planning efforts do not initiate development that precludes or significantly complicates the ability to develop latter stages of the Airport. Additionally, the planning effort must result in a scheme that remains flexible while also definitely establishing a coordinated plan for the incremental growth of specific elements of the Airport.

Sustainability

Environmental conservation is an important element of consideration for all work proposed for the Site. The Master Plan shall consider this from various lenses, considering overall site sustainability with respect to how the project is situated on the Site, how it impacts the area in and around the Site boundaries, for example through transportation to and lighting of the Site.

- **Water:** How is water demand managed, and how is water treated on the site?

Sustainable, site-wide water strategies must first promote demand reduction, through management of water demand for building use, irrigation, and fire safety. Building demands should be managed by provision of water efficient fixtures, namely sinks and toilets. Irrigation requirements should be minimized by use of native species that are drought tolerant. Strategies should be pursued that promote the collection of graywater and storm-water for non-potable uses, including irrigation and aircraft washing.

- **Energy:** How is energy provided on or delivered to the site in sustainable ways, and how efficiently do building systems that require energy to operate?

The ultimate EPI (Energy Performance Index) of the airport shall be less than the industry average as amended time to time.

A large part of the energy required to operate the buildings on site is required for the

conveyance systems, equipment, special systems (such as baggage handling), and HVAC/lighting. In particular HVAC and lighting loads have the potential to be decreased by the use of solar shading (through use of sunshades, for instance), and by daylighting. These strategies should be implemented in each of the ancillary buildings, as well as the passenger terminal. It is expected that most energy efficient Air conditioning system with best Coefficient of Performance associated with modern control techniques and energy efficient Lighting shall be used.

- **Materials/resources:** How is waste managed on the Site, both during construction and in the course of daily operation, and are new materials selected and installed in sustainable ways?

Materials specified for use on construction of the Site works, passenger terminal building and ancillary structures should be: low-toxicity, durable, low-maintenance, and use recycled content (to the largest extent possible). Where regional products and materials are available that meet the performance criteria outlined, these products should be considered for use.

- **Waste Management:** How is waste managed on the Site?

A waste management strategy should be developed that minimizes construction waste, which in turn will reduce the amount of transportation energy expended to move materials to and waste from the Site. Once the facilities are complete, a strategy should be developed for limiting landfill waste generated by workers and passengers in the course of daily operation, through promotion of recycling and composting of organic waste, if possible.

- **Indoor Environmental Quality:** Are building systems being used to maximize occupant access to clean air, and daylight; are acoustical concerns mitigated?

All buildings will be mechanically ventilated and selection of low-VOC materials will encourage a high quality of indoor area. Special glazing and other acoustical materials should be used to help attenuate the impact of outdoor aircraft and vehicle noises at building interiors; similar measures should be taken to control indoor noise generated by passengers and work activity.

The following summarizes minimum site sustainability goals and targets.

- Provide power for at least 25% (twenty five percent) of street and parking lot lights through solar,
- Provide rainwater harvesting of at least 30% (thirty percent) of all the storm water runoff generated on Site. Such water may be used to recharge the aquifer or as irrigation water,
- Use solar energy or other forms of recyclable energy for utility support buildings, i.e. methane gas for power generation,

1.2 Measurement mechanism of Objective Performance Parameters

- a) The measurement mechanism for performance on parameters “parking bays”, “Passenger boarding bridges”, “baggage delivery”, “availability of Flight Information Display Systems”, “escalators, elevators and travellers”, and “Automated services”.

The availability measure of each parameter shall be measured with respect to number and type of assets included under each parameter and shall be measured in accordance with the following:

- (i) Calculate the total number of assets under each parameter, e.g. number of escalators, and multiply with the total available time required and total unavailable time for each asset. Calculate the sum total of the total available time and total unavailable for all assets, expressed as:

Total available time required =

$$\sum_{k=1}^n T_{k,j}$$

Total unavailable time =

$$\sum_{k=1}^n U_{k,j}$$

Where:

n is the total number of assets included in parameter i;

k denotes a specific asset included in parameter i such that k=1,2,...,n

T_{k,j} is the total planned available time for asset k in month j (i.e.after deducting the time for planned maintenance)

U_{k,j} is the time that asset k is unavailable in month j;

- (ii) Calculate availability for parameter i in month j as:

Availability_{ij} =

$$100 \times \left(1 - \frac{\sum_{k=1}^n U_{k,j}}{\sum_{k=1}^n T_{k,j}} \right)$$

Where:

Availability_{ij} is the percentage availability of parameter i in month j;

- b) The measurement mechanism for performance on parameters “car parking”, “security check”, “check-in”, “immigration”, “passenger arrival process”, and “waiting time for taxi”.

The measurement is to be done for the number of queues such that a statistically significant sample of Passengers is covered. The waiting time in queue shall be determined as:

- (i) For each randomly selected day of a month, the ‘busiest hour’ of the day over which performance shall be measured is divided into “10 minute time intervals” beginning xx:00, xx:10, xx:20, xx:30, xx:40, xx:50, and xx:60 in the respective hour;

For each “10 minute time interval”, the average queuing time shall be calculated as:

“average queuing time” = Num / A

Where:

A is the average number of Passengers per minute leaving the queue in the 10 minute time interval;

Num is the average number of Passengers in the queue per minute in the 10 minute time interval.

- (ii) The performance percentage figures for set standard shall be calculated by:
- i. Identifying how many Passengers in the busiest hours were processed in a time interval where the measured average queue time is no more than the set standard; and
 - ii. Calculating the percentage by dividing the above figure by the total number of Passengers processed in those busiest hours.

An hour may be specified to be a clock hour, starting at 00 minutes past the hour and ending at 59 minutes past the hour or any other predefined convention that the Concessionaire chooses (pre-defined so that the definition of an hour cannot be influenced by any other factors at the time of determining the sample hour).

1.3 Subjective Quality of Service Parameters and Benchmarks

- a) Measurement of Subjective Performance Parameters

The Concessionaire shall become a member of Airports Council International (ACI) prior to the COD. Within six months from COD, the Concessionaire shall begin participating in the Airport Service Quality (ACI ASQ) Survey through which the departing Passengers shall be interviewed about their on-the-day experience at the airport.

If the membership of the Concessionaire is not accepted by ACI within such period, it shall procure an independent expert agency to (1) design a questionnaire and conduct a survey process that provides a basis of measuring subjective performance parameters on a 5- point scale and seek approval from the Authority on such questionnaire and the survey process, and (2) measure the responses of Passengers on a quarterly basis.

The rating obtained in the Passenger survey conducted either through the ACI-ASQ Survey or through the independent expert agency shall be the measure for subjective performance parameters.

- b) The parameters to be covered by the above specified passenger survey will include all measured parameters as per ACI ASQ such as below:
- (i) Overall satisfaction with the airport
 - (ii) Ground transportation to/from airport
 - (iii) Availability of parking facilities
