Consultation Paper No.03/2011-12

Airports Economic Regulatory Authority of India

Multi Year Tariff Proposal for 1st Control Period submitted by Bharat Stars Services Private Limited for Into Plane Service Fee at IGI Airport, Delhi

New Delhi: 28th April, 2011

AERA Building Administrative Complex Safdarjung Airport New Delhi – 110 003 Bharat Stars Services Private Limited (BSSPL), have vide their application ref:HO.BSSPL.AERA dated 10.03.2011, submitted their Multi Year Tariff Proposal (MYTP) for the first control period commencing 01.04.2011, in respect of the tariff for Into Plane Service (ITP) at IGI Airport, Delhi (Annexure-I).

- 2.1 BSSPL have submitted that the ITP Services at IGI Airport rendered by them fall under the ambit of "Light Touch Regulation" since the service is competitive as per details outlined in Clause 6.1 of the Authority's Order No.12/2010-11 dated 10.01.2011.
- 2.2 As stipulated in the Airports Economic Regulatory Authority of India (Terms and Conditions for Determination of Tariff for Services provided for Cargo Facility, Ground Handling, and Supply of Fuel to the Aircraft) Guidelines, 2011 (the Guidelines), the Authority shall follow a three stage process for determining its approach to the regulation of a regulated service
 - (i) Materiality Assessment;
 - (ii) Competition Assessment;
 - (iii) Assessment of reasonableness of the User Agreements between the service providers and the users of the regulated services.

The percentage share fuel off take at IGI Airport is 31.97% (2009-10 data). Since the materiality index is more than 5% the service is deemed as "material". BSSPL's expected market size of the forecast of fuel offtake at IGI Airport is 38% of the total Volume.

- 2.3 The Guidelines provide that where a Regulated Service is being provided at a major airport by two or more Service Provider(s), it shall be deemed "competitive" at that airport and if such service is provided by less than two Service Provider(s), it shall be deemed "not competitive". The Guidelines also provide that the Authority may in its discretion consider such other additional evidence regarding reasonableness of competition, as it may deem fit and the determination of number of Service Provider(s) at a major airport shall include the Airport Operator, if the Airport Operator is also providing Regulated Service(s) at that major airport.
- 2.4 BSSPL have submitted that the ITP service fees has been arrived by the Airport Operator i.e., Delhi International Airport Limited (DIAL) through a competitive bidding process wherein two parties including BSSPL and Indian Oil Skytanking Limited (IOSL) have been selected. Since the service is provided by two or more Service Provider(s), the service is deemed to be "competitive". BSSPL have also added that the ITP fees arrived after the competitive bidding process is the ceiling charge, i.e., a cap on the ITP service fees and the same are reasonable in line with the local market conditions.
- 2.5 In addition, BSSPL have stated that they have entered in to agreements with the fuel suppliers and thus act as agents of the fuel suppliers providing ITP services on their behalf and the fee is based on the concept of open access model with an overall objective of creating a transparent, competitive fuel structure for the stakeholders towards overall efficiency. BSSPL have submitted copies of agreements entered into with its users (Bharat Petroleum Corporation Limited and Hindustan Petroleum Corporation Limited). In addition BSSPL have submitted a copy of the ITP Concession Agreement with DIAL.
- 2.6 BSSPL have submitted that their operation commenced from 28.07.2010 and in line with the long term agreements with the fuel suppliers and DIAL the following ITP service fee is applicable during the FY.2010-11 which are subject to revision on an annual basis:

ITP Service Fee (In Rs /Kilolitre)								
Fuelling	Defuellir	ng Aircraft	Re-fuelling De-fuelled Product					
Aircraft			into an Aircraft					
	Within 6	Beyond 6	Within 6 hrs.	Beyond 6 hrs.				
	hrs.	hrs.						
149	149	224	186	224				

It has been submitted that without the timely receipt of the ITP service fees as above in the FY 2010-11 it is very difficult to sustain the normal operations in the long run having serious impact on their financial liquidity for discharging business responsibilities.

- 2.7 In view of the above submissions, BSSPL have sought approval under "Light Touch Regulation" for:
 - (i) Approval to charge and receive above ITP fees for the services already rendered/being rendered during the interim period 28.07.2010 to 31.03.2011 as per the above rates prior to start of the control period effective 01.04.2011 which will enable them to meet their financial obligations and complete the financial closing by end of March'2011.
 - (ii) Approval of ITP services Rates as per the MYTP.
- 2.8 **BSSPL** have stated that their submission including the "Agreements", Financials and Other Business details is confidential in nature and have requested that the same is not put in public domain to ensure that their business interests are protected and confidentiality is maintained. However, vide their additional submission dated 18.04.2011 **(Annexure –II)**, BSSPL have enclosed the list of documents that may be utilised for the consultation process as deemed fit
- 2.9 BSSPL, vide their ref: HO.BSSPL.AERA dated 11.04.2011 **(Annexure-III)**, have also filed a separate application for approval of their ITP charges for the period 28.07.2010 to 31.03.2011.
- 2.10 Further, vide their letter dated 20.04.2011 **(Annexure-IV)** BSSPL have requested this Authority to approve the rates as per the current agreements for "Into-Plane Service" at Delhi Airport as under:

ITP Service Fee in Rs./KL	2010-	2011-	2012-	2013-	2014-	2015-
	11	12	13	14	15	16
Refuelling Aircraft	149	156.45	164.27	172.49	181.11	190.17
Defuelling Within 6 hrs.	149	156.45	164.27	172.49	181.11	190.17
Defuelling Beyond 6 hrs	224	235.20	246.96	259.31	272.27	285.89
Re-fuelling De-fuelled Product	186	195.30	205.07	215.32	226.08	237.39
Within 6 hrs.						
Re-fuelling De-fuelled Product	224	235.20	246.96	259.31	272.27	285.89
Beyond 6 hrs						

5% annual escalation as per agreements

- 3.1 It is observed that DIAL appointed IOSL and BSSPL to undertake ITP services consisting of fuelling of aircraft, refueling of aircraft and refueling of defueled product into the aircraft. DIAL, without previous approval of the Authority, directed these ITP service providers to charge the new fee with effect from 28.07.2010. No proposal was received from the into plane service providers, at that time, for any approval/ fixation of these charges.
- 3.2 The Authority considered the issue in its Nineteenth Meeting (No.13/2010-11) held on 23.09.2010 wherein it was decided that DIAL and the ITP service providers should be immediately apprised of the legal position and requested to submit their comments and explanation in the matter within a period of 10 days failing which coercive action may have to be contemplated. The Authority, vide its letter dated 13.10.2010 to DIAL and the ITP service providers, apprised them of the legal position and requested their comments and explanation by 23.10.2010.
- 3.3 In pursuance thereof, BSSPL confirmed that they would not be charging any fee without determination of tariff by this Authority.

- 3.4 BSSPL, vide their letter Ref HO.BSSPL.AERA dated 15.12.2010 furnished some details and requested the Authority to approve the tariff w.e.f. 28.07.2010 on an urgent basis.
- 3.5. In the meanwhile, Authority finalized its regulatory philosophy and general framewok for the economic regulation of the services provided for cargo facility, ground handling and supply of fuel to aircraft by Independent Service Providers (ISP) at the major airports. The Guidelines on tariff determination of tariff in respect of the subject services provided by the ISP(s) were issued on 10.01.2011. Hence BSSPL was requested to resubmit their proposal in terms of the aforesaid Guidelines vide letter dated 12.01.2011.
- 3.6 As already brought out vide para 2.2 and 2.4 above, the ITP service being rendered by BSSPL at IGI Airport is 'material' and 'competitive'.
- 3.7 The price that BSSPL is contractually entitled to charge from the Users, pursuant to the tender, for the first year are stated to have been fixed as under:

Price	Price (for the year 2010-11) w.e.f 28.07.2010 to 31.03.2011									
(In Rs /Kilolitre)										
Fuelling	Defuellir	ng Aircraft	Re-fuelling De-fuelled Product							
Aircraft			into an Aircraft							
	Within 6	Beyond 6	Within 6 hrs.	Beyond 6 hrs.						
	hrs.	hrs.		-						
149	149	224	186	224						

Relevant extracts of clause 2.4, **pertaining to the "Fee Chargeable by the Concessionaire"**, of the ITP Concession Agreement (with DIAL) furnished by BSSPL is reproduced as under:

2.4.1 The Concessionaire shall charge the Air Carriers or the Suppliers the ITP Service Fee for each litre of ATF that is provided as part of the ITP Service provided. The ITP Service Fee shall be subject to a price cap in Rs./kilo litre terms and shall be charged as per Schedule H hereto.

The price cap for the first Financial Year of operations (in Rs./kilo litre) will be set out in Schedule H, and the same shall be escalated at a rate of 5% or WPI each year whichever is lower. The price cap for each of the subsequent years will be

- (a) Effective from the 1st day of April of the following year and
- (b) Escalated by WPI as on the first day of January for the respective year.

The Concession agreement also provides that "..the WPI for all commodities announced by GOI will be considered." and that "..The price cap so prescribed shall be maximum rates and Selected Tenderer/Concessionaire will be free to offer a discount on these rates to the Air Carriers or the Supplier."

The ITP Concession Agreement (with DIAL) also provides that "...DIAL may review the escalation cap in case the input cost goes beyond 5%."

- 3.8 As per Schedule B of the agreement with the Users, the Agency Fee i.e., the ITP service fee, payable by Suppliers/ Air Carriers to the ITP Agent reflect the charges mentioned above. The User agreements mention that the agency fee shall be subject to revision by the ITP Agent in accordance with the limits set by DIAL from time to time.
- 3.9 BSSPL have arrived at a tariff of Rs.155.91/KL for the interim period (2010-11) and Rs.197.66/KL for the period 2011-12 (27% increase). However, approval has been sought for the rates as **per the current agreements for 'Into-Plane Service' at Delhi Airport and the sa**me has been reproduced at para 2.10 above.
- 4.1 The Authority, vide its Order No.17/2010-11 dated 31.03.2011, while extending the timeline for submission of MYTP by the ISP(s) upto 30.4.2011 had also decided that, in the interim, all ISP(s) may continue to charge the tariffs as prevalent on 01.09.2009 or as may have been approved/determined by the Authority thereafter with effect from 01.4.2011 and upto the date when the new tariffs as may be approved by the Authority became applicable

and that this interim arrangement would be subject to the condition that the concerned ISP(s) submit the MYTP latest by 30.04.2011. In case any ISP(s) fails to submit MYTP on or before 30.04.2011, the interim arrangement in respect of such service provider(s) would cease to be effective.

- 4.2 Further, the Authority noted in the above referred Order that BSSPL have submitted the MYTP for ITP services provided by them in respect of Delhi airport as per the time prescribed in the Guidelines and that BSSPL started providing ITP services w.e.f 28.07.2010 and the charges thereof have not been determined by this Authority. Therefore, presently, BSSPL are not charging any fee in respect of service provided by them at IGIA, Delhi. The Authority felt that the proposals submitted by BSSPL in respect of ITP services at IGI Airport, New Delhi may be immediately taken up for examination.
- 4.3 It is observed that in line with the user agreements, BSSPL had commenced refueling services w.e.f 28.07.2010 but have not been able to charge any fees. Therefore there is no flow of revenue to meet the commensurate expenses incurred towards rendering the services. Hence, this proposal has to be considered by the Authority at the earliest so as to ensure the viability of operations.
- 5.1 Further, in terms of Clause 7.3 & 7.4 of the Guidelines, the Authority shall upon due consideration of the MYTP and stakeholder consultations thereon make a Multi Year Tariff Order (MYTO) for a Control Period. After issuance of the MYTO, the service provider shall submit its Annual Tariff Proposal (ATP). The ATP for the first tariff year of the first control period is required to be submitted within 75 days of the issue of MYTO. As per Clause 11.2, the ATP is required to be submitted in the manner and form provided in Al.8.1 of Appendix I. The proposal is required to be supported by the following:
 - a. Details of consultations with stakeholders
 - b. Evidence of User Agreements clearly indicating the Tariff proposal by the service provider and agreed to by the User.
- 5.2 However, in the instant case, BSSPL have submitted the ATP for 2011-12, i.e., the first tariff year of the first control period along with the MYTP itself. The tariffs proposed are supported by User Agreements. The ITP rates sought for approval by BSSPL, on the basis of User Agreement, are as under:

Period	Fuelling Aircraft	Defuelli	ng Aircraft		lling De-fuelled into an Aircraft
		Within 6 hrs.	Beyond 6 hrs.	Within 6 hrs.	Beyond 6 hrs.
28.07.2010 to 31.03.2011	149	149	224	186	224
01.04.2011 to 31.03.2012	156.45	156.45	235.20	195.30	235.20

- 6. The Authority has carefully considered the issue in detail and has observed and tentatively decided as under:
 - (i) The ITP services provided by BSSPL at IGI Airport, New Delhi are 'material' but 'competitive'. Therefore, in accordance with the clause 3.2 of the Guidelines, a "Light Touch Approach" may be adopted for determination of tariff in the first control period w.e.f. 01.04.2011.
 - (ii) Since the BSSPL is proposed to be regulated under a "Light Touch Approach" in the first control period, the tariff for the period immediately preceding the first control period, i.e., 28.7.2010 to 31.3.2011 may also be proposed for approval in line with the light touch approach.
 - (iii) As per clause 7.3 and 7.4 of the Guidelines the Authority shall upon due consideration of the MYTP and stakeholders consultation shall make MYTO

for a control period. After issuance of MYTO the service provider shall submit its ATP. However, in the present case the service provider has submitted the ATP for the first tariff year 2011-12 along with MYTP itself. Further, as indicated above, presently, there is no approved tariff in respect of BSSPL and BSSPL have been rendering these services since 28.7.2010 without receiving any fee. Therefore, if a strict compliance with Guidelines is insisted upon, the matter of approval of tariff would get postponed further and BSSPL would have to continue providing services without obtaining any revenue therefrom. This would not be in the interest of economic and viable operation of the service provider. In this light, the Authority, as a special case, proposes to approve the ATP for the first tariff year 2011-12 at this stage itself.

- (iv) BSSPL's request to ensure confidentiality of their financials as well as client confidentiality may be accepted. Therefore, while placing MYTP etc. for stakeholder consultation relevant information is to be redacted.
- 7. The above tentative decision is hereby put forth for stakeholder consultation.
- 8. The Authority welcomes written evidence-based feedback, comments and suggestions from stakeholders on the proposal made in para 6 above, <u>latest by 12th May'2011</u>, at the following address:

10th March 2011

To

Secretary
Airports Economic Regulatory Authority of India
AERA Building, Administrative Complex
Safdarjung Airport, New Delhi – 110003

Kind Attn: Mr Sandeep Prakash

Dear Sir

Subject: In the matter of economic regulation – Service provided for Cargo facility, Ground Handling and Supply of Fuel to the Aircraft - Into-Plane Service Fee at IGI Airport – Reg

We write with reference to Order No 12 / 2010-11 dated 10th January 2011 & your letter D.O.No.AERA/20019/CGF-G/2010-11/Vol.II/1643 dated 21st February 2011 on the subject.

In this context please refer to our earlier communication on the subject vide letter HO.BSSPL.AERA dated 30th Oct 2010 wherein the following facts were brought to the kind notice of the Authority.

- In the new business model at IGI Airport the concept of "Open Access" has been introduced thereby encouraging competition & optimisation. In effect the earlier "Value Chain" of Aviation Fuel Supply which encompassed aviation fuel supplies at airports though airport hydrant facilities / into-plane services by respective fuel suppliers has now been segmented into:
 - a. Aviation fuel supplies by fuel suppliers
 - b. Hydrant Infrastructure Services
 - c. Into-Plane Services.

Thus the "Into-Plane" service is not a new activity & was earlier done by the fuel suppliers being a part of integrated fuel supply chain prior to commercial operations of Terminal 3 at IGI Airport.

कॉर्पेरेट ऑफिस : 4 मंजिल, प्लॉट ए-5 एव 6, सेक्टर-1, नाएडा - 201 301, भारत ' फोन : +91 120 2474493 / 4407 फैक्स . +91 120 2474481 / 483 Corporate Office : 4th Floor, Plot A-5 & 6, Sector-1, Noida - 201 301, India Phone: +91 120 2474493 / 4407 Fax : +91 120 2474481 / 483

- 2. The "Into-Plane" service fee has been arrived by the Airport Operator through a competitive bidding process wherein two parties including Bharat Stars Services Pvt Ltd have been selected by the Airport Operator i.e. "Delhi International Airport Pvt Ltd".
 - 3. The "Into-Plane" services fees arrived after the above competitive bidding is the ceiling charge i.e. a cap on the ITP services fees. The ceiling ITP Service Fees which have been arrived through competitive bidding process are very reasonable in line with the local market conditions.
 - 4. Consequent to selection through competitive bidding process, the selected Companies as Into-Plane "concessionaire" have made / committed investments in line with long term concession agreements signed with the Airport Operator.
 - The "Into-Plane" concessionaires are having agreements with "Fuel Supplier"
 thus act as agents of the fuel suppliers providing "Into-Plane" services on their behalf.
- 6. The "Into-Plane" services fees is based on the concept of open access model with an overall objective of creating a transparent, competitive fuel structure for the stakeholders, towards overall efficiency.

The "Into-Plane" Services at IGI Airport provided by us comes under the ambit of "Light Touch Regulation" since the service is competitive as per details outlined in clause 6.1 of Order No 12 / 2010-11.

We herewith enclose a "Multi Year Tariff Proposal (MYTP)" for the control period starting from 1st April 2011 along with requisite annexure as listed below for your kind perusal.

- I. Into-Plane Concession Agreement with Airport Operator (DIAL)
- II. Agreements with Fuel Suppliers
- III. Form A Submission of the MYTP
- IV. Multi Year Tariff Proposal along-with requisite financial details.
- V. Annexures

The "Into-Plane (ITP)" operations of BSSPL at IGI Airport Terminal commenced from 28th July 2010 & in line with our "Long Term Agreements" with fuel suppliers & Airport Operator (DIAL) the following ITP Services fees is applicable during the current Financial Year 2010-11.

Page 2 of 3

Fuelling			Refuelling defueled product into aircraft				
	Within 6 hours	Beyond 6 hours	Within 6 hours	Beyond 6 hours			
149	149	224	186	224			

The above rates are subject to revision on annual basis.

It will appreciated that without timely receipt of "Into-Plane" Service Fees (earnings) as above in the FY 2010-11, it is very difficult to sustain the normal operations in the long run having serious impact on our financial liquidity for discharging business responsibilities.

In view of the above, we seek the following approvals under "Light Touch Regulation".

- I. Approval to charge & receive above ITP service fees for the services already rendered/being rendered during the <u>interim period 28th July 2010 to 31st March 2011 as per above rates prior to start of control period effective 1st April 11. This will enable us to meet our financial obligations & complete the financial closing by end of March 2011.</u>
- II. Approval of ITP Service Rates as per "Multi Year Tariff Proposal" submitted by us with requisite details.

This submission including the enclosed "Agreements", Financials & other Business details is confidential in nature. It is requested that the same is not put in public domain to ensure that our business interests are protected & confidentiality is maintained.

Thanking you & assuring of our best cooperation at all times.

Yours faithfully

For Bharat Stars Services Pvt Ltd

V Ranjan

Chief Executive Officer

Each of the Selected Bidder and DIAL are individually referred to as "Party" and collectively as "Parties".

WHEREAS:

The Airports Authority of India (hereinafter referred to as "AAI" and more particularly defined hereinafter) and DIAI, have entered into the OMDA (as more particularly defined hereinafter) pursuant to which DIAI, has been awarded an exclusive concession by the AAI to develop, finance, design, construct, modernize, operate, maintain, use and regulate the use by third parties of the Airport (as more particularly defined hereinafter).

PM,

CONCESSIONAIRE

PAGE I

2.4 Fee Chargeable by the Concessionaire
 2.4.1 The Concessionaire shall charge the Air Carriers or the Suppliers the ITP Service Fee for each litre of ATF that is provided as part of the ITP Services, depending on the nature of ITP Service

DIAI. CONCESSIONAIRE

provided. The EFP Service Fee shall be subject to a price cap in Rs./ kilo litre terms and shall be charged as per Sebedule II hereto.

The price cap for the first Financial Year of operations (in Rs. /kilo litre) will be as set out in Schedule II. and the same shall be escalated at a rate of 5% or WPI cach year whichever is lower. The price cap for each of the subsequent years will be

(a) Effective from the first day of April of the following year and

(b) Escalated by WPI as on the first day of January for the respective year.

For Example if the escalation is given on the basis of WPI, the price cap for the second year from April 1, 2011 to March 31, 2012 will be calculated as follows:

CII. CI * WPI dumary by 2011 / WPI (January by 2010) Where:

2

CHe: refers to the price cap for the current Financial Year 2011-2012 (i.e., second Financial Year of operations in this example)

Cl: refers to the price cap for the first Financial Year of operations as set out in Schedule

For each subsequent Financial Year of operations, the price cap of the immediately preceding Financial Year shall be taken as the base for calculating revised price cap of the said subsequent Financial Year. Accordingly, the CII_x for the second Financial Year of operations shall become price cap for the third Financial Year of operations. For example if the escalation is given on the basis of WPI, the price cap for the third Financial Year from April 1, 2012 to March 31, 2013 will be calculated as follows:

CII c = CIIrp.* WP1 (January 1st. 2012) / WP1 (January 1st. 2011) Where:

CIIe: refers to the price cap for the current Financial Year 2012-2013 (i.e., third year in this example)

CIIn: refers to price cap for the immediately preceding Financial Year 2011-2012.

For this purpose, the WPI for all commodities announced by GOI will be considered.

The price cap so prescribed shall be maximum rates and Selected Tenderer/ Concessionaire will be free to offer a discount on these rates to the Air Carrier and/or Supplier

Provided that DIAL may review the escalation cap in case the input cost goes beyond 5%

- 2.4.3 For each of the ITP Services required to be provided by the Concessionaire, the Concessionaire shall enter into User Agreement(s) with the Supplier or the Air Carrier and charge as follows:
 - (a) an Air Carrier which has entered into a contract with a Supplier for the sale and delivery of ATP ex-hydrant, the Air Carrier directly; or
 - (b) a Supplier which has entered into a contract with an Air Carrier for the sale and delivery of ATF into aircraft at the Airport, the Supplier directly; or
 - (c) an Air Carrier who is also the Supplier and is self-supplying the ATF ex-hydrant, the Air. Carrier directly; or
 - (d) any other entity identified in a direction under Clause 11.2.2, in accordance with such direction.

PP,

CONCESSIONAIRE

April 11, 2011

To

Secretary
Airport Economic Regulatory Authority of India
AERA Building, Administrative Complex,
Safdarjung Airport, New Delhi-110003

Kind Attn: Mr. Sandeep Prakash

Dear Sir,

Subject:

In the matter of economic regulation – Service Provided for Cargo Facility, Ground Handling and Supply of Fuel to the Aircraft – Into-Plane Service Fee at IGI Airport – Reg.

We write with reference to our letter of HO.BSSPL.AERA dated 10.03.11 and Order No. 17/2010-11 dated March 31, 2011 on the subject.

We herewith enclose "Annual Tariff Proposal (ATP)" for the year 2010-11 along with requisite annexure as listed below for your perusal.

- i. Into-Plane Concess on Agreement with Airport Operator (DIAL)
- ii. Agreements with Fuel Suppliers
- iii. Form B Submission of the ATP
- iv. Annual Tariff Proposal along with requisite financial details.

The "Into-Plane (ITP)" operations of BSSPL at IGI Airport Terminal commenced from July 28, 2010 & in line with out "Long Term Agreements" with fuel suppliers & Airport Operator (DIAL) the following ITP Services fees is applicable during the current Financial Year 2010-11.

ITP Service	Fee (In Rs./ Kilolitre)			the same of the sa		
Fuelling	Defueling		Refueling defueled product into ar aircraft			
	Within 6 hours	Beyond 6 hours	Within 6 hours	Beyond 6 hours		
149	149	224	186	224		

In view of Annual Closing of Accounts (FY 2010-11), we seek your approval to charge & receive above ITP service fees for the services already rendered during the interim period July 28, 2010 to March 31, 2011 as per above rates prior to start of control period effective from April 1, 2011 under "Light touch Regulation".
