ISO 9001:2008, ISO 14001:2004 Certified

Ref : AV/TSD/Mumbai - ITP Date : 15th November 2014

To,

The Secretary Airports Economic Regulatory Authority of India AERA Building, Administrative Complex Safdarjung Airport, NEW DELHI – 110 003.

Dear Sir,

()

<u>Subject</u>: <u>Submission of Multi Year Tariff Proposal for determination of Tariff</u> for Into Plane Service Fee by IndianOil Skytanking Limited – ITP Service <u>Provider at Chhatrapati Shivaji International Airport (CSIA), Mumbai.</u>

Mumbai International Airport Limited (MIAL) has granted Mumbai Aviation Fuel Farm Facilities Private Limited (MAFFFL), a joint venture company of MIAL and the Oil PSUs – Indian Oil Corporation Limited (IOCL), Bharat Petroleum Corporation Limited (BPCL) and Hindustan Petroleum Corporation Limited (HPCL), the right to provide the Into-Plane Services, itself and / or through sub-concessionaires, to the various Users at Chhatrapati Shivaji International Airport (CSIA).

Accordingly MAFFPL through a competitive bidding process by way of Public Tender has selected two sub-concessionaires for providing the into-plane services to various users at the airport. The two Service Providers are Bharat Star Services Pvt. Ltd. (BSSPL) and ourselves, IndianOil Skytanking Ltd. (IOSL). The contract has been awarded and the Sub-Concession Agreement has been executed between MAFFPL and the ITP Agent in accordance with and subject to the terms and conditions stipulated in the Public Tender invited by MAFFFL. A copy of the Agreement executed between MAFFFL and IOSL is enclosed at Annexure for your kind reference and record.

Further to our being appointed as the ITP Sub-concessionaire by MAFFFL and having executed the sub-concession Agreement, we are pleased to submit, as under, our Multi Year Tariff Proposal in accordance to AERA (Terms and Conditions for Determination of Tariff for Services Provided for Cargo Facility, Ground Handling and Supply of Fuel to the Aircraft) Guidelines, 2011 :-

- 1. Form' (A) Annexure 1
- 2. Various Forms as per AERA Guidelines contained in Page Nos.1 to 40 (as mentioned in Check List)
- 3. User Agreements
 - a. Copy of Sub Concession Agreement with MAFFFL
 - b. Copy of Into Plane Agent Agreements with Supplier.

Page 1 of 6

IndianOil Skytanking Ltd. Regd. Office : Fuel Farm Facility, Bangalore International Airport, Devanahalli, Bangalore - 560 300. Tel : + 91 80 66783204 Fax : +91 80 66783205 CIN : U11202KA2006PLC040251 CP No. 01/2Web(NYTRWORK/ITR/Wark/Alsky/Manking.co.in e-mail : info@indianoilskytankingaco5af 58

The test of three stage approach to Assessment of Materiality, Competition and Reasonableness of User Agreements, in accordance to Clause 3 of the Guideline is illustrated in the following paragraphs:

1. Materiality Assessment (Clause 4.2) :

Materiality Index (MI_F)

- Fuel throughput in Kiloliter at Mumbai Airport / Total Fuel Throughput in Kilolitres at major Airports X 100
- = 1370940 KL / 4926539 KL X 100
- = 27.83 %

O

The MI_F is more than 5% and hence the service is deemed as "Material".

2. Competition Assessment (Clause 5) :

Two Into-plane Service providers viz. Bharat Star Services Pvt. Ltd. and ourselves, have been appointed by MAFFFL through a competitive bidding process by way of a Public Tender. Since this Regulated Service at CSI Airport Mumbai shall be provided by two service providers, it shall be deemed as **"Competitive"** at this airport.

3. User Agreements (Clause 6):

The contract has been awarded to two Services Providers by MAFFFL on the basis of a competitive bidding process by way of a Public Tender and in accordance to the Terms and Conditions stipulated, therein.

The Sub-concession Agreement executed between MAFFFL and ourselves clearly articulates the terms on which we have been awarded the contract for a period of 10 years with annual escalation contemplated at a rate of 5% each year applicable effective 01 April of each financial year. Also the draft user agreements formed part of the Public Tender floated by MAFFFL.

We, as the Into Plane Service Providers have in-turn entered into agreements with the Suppliers (Users) whereby the rates and the terms on which ITP Services would be provided at the airport are detailed. These agreements with the Users stipulate not only the price but also the service level parameters that will have to be maintained by us.

The terms of the agreements were concluded after prolonged deliberations at joint meetings between ourselves and all the Users and on terms that were accepted by the Users. A copy of agreement executed between Indian Oil Corporation Limited and us is enclosed herewith for reference and records. The terms of the agreements are identical for all the Users. We are under an

IndianOil Skytanking Ltd. Regd. Office : Fuel Farm Facility, Bangalore International Airport, Devanahalli, Bangalore - 560 300. Tel : + 91 80 66783204 Fax : +91 80 66783205 CIN : U11202KA2006PLC040251 CP No. 01/20/515/16 TR/INSK/ITP/MUM/2015/515/16 Transformed and the second second

ISO 9001:2008, ISO 14001:2004 Certified

obligation to enter into contracts with any other User desirous of availing our Services on a non-discriminatory basis.

There were several rounds of consultations and meetings held between the Users, MAFFFL and the ITP Service Providers on several occasions at the office of MAFFFL at Mumbai. The several drafts exchanged pursuant to such meetings evidences the long consultations that were undertaken with the stakeholders.

The Users raised various concerns regarding the manner in which the operator's facilities would be accessed, risk and amortization of risk, aircraft refueling and related insurance obligations, sharing of responsibilities and liabilities, service parameters, defueling and capacities for defueling, payments and penal clauses on delayed payments, were amongst the several issues that were raised, discussed and agreed upon. The agreement that was eventually arrived at is as recorded in the agreements that are enclosed.

The agreement that was eventually arrived at has addressed all concerns raised. The parties have agreed upon various service level parameters such as ATF Specification, the manner in which the services provided by the ITP agent and its quality would be ensured through maintenance of standards in terms of Quality control assurance and operating manuals approved by DGCA and Joint Guidelines issued by the Joint Inspection Group (JIG) internationally and by further providing for monitoring such services through the Joint Co-ordination Committee (JCC) comprising of representatives of airport operator, facility operator, facility owner, ITP agent, representatives of private sector suppliers, representatives of public sector suppliers, representatives of domestic air carriers and representatives of international air carriers.

From the above, it is clear that we meet the conditions prescribed under the AERA Guidelines for the category of "**Material but Competitive**". While reasonableness of the User Agreements will not be pertinent in our case, the details furnished above also demonstrate the validity and reasonableness of the User Agreements. Since we fulfill the above conditions, ITP Services fall under '**Light touch approach'** as per the AERA Guidelines.

4. Confidentiality of the documents submitted:

You may kindly note that we are bound to ensure confidentiality of our client agreements and its terms and the disclosure made herein above is to ensure compliance with the AERA Guidelines.

The terms of the Agreements for providing various Services at CSIA, Mumbai, the commercial terms agreed to between us, as the Into plane Service Provider and the suppliers, various service parameters and service specifications, are all key ingredients in determining the quality of services being provided by us at the CSIA, Mumbai.

These specifications cannot be put into public domain for the following reasons:

- a) The performance indicators/specifications are unique to this arrangement;
- b) The specifications set out are quality related specifications, acting as indicators of performance of the into plane agents as well as the quality of services being provided by us;
- c) Ours is a service industry and performance specifications and standards are key ingredients to our functioning and we regard these specifications and parameters as our intellectual property and value it as our trade secret;
- d) Such information, if in public domain, is at the risk of being copied by our competitors and also the competitors of our service providers;
- e) As a result of the specifications being copied by our competitors, what is otherwise a 'competitive service' may cease to be so since we will not be able to retain our uniqueness in providing these services; and
- f) As per the terms of our agreement with MAFFFL and the users, we are under an obligation to keep confidential the terms of all agreements entered into with respect to CSIA, Mumbai.

For the reasons stated above and to ensure that that the distinctiveness and competitive nature of services developed and retained by us for many years is not hampered in any manner by a disclosure of our confidential information, we request that the agreements entered into between us and our service provides or any part thereof, should not be uploaded on your website or made public in any other manner.

However, we understand that from a regulatory perspective, it is essential to bring the proposal into public domain in order to determine the tariff, and as such, we do not have any objection to uploading of the tariff proposal determined by us, with references to the agreements between us and the service providers.

The following pages of the Into-Plane Fuelling Service Sub Concession Agreement and Into-Plane Agent Agreement may be uploaded on your website:

Pages 1 & 2 and Annexure II (Page Nos. 44) of the Into-Plane Fuelling Service Sub Concession Agreement.

Pages 1&2 and Schedule A (Page Nos. 19) of the Into-Plane Agent Agreement.

EXECUTIVE SUMMARY

"Airports Economic Regulatory Authority of India (Terms and Conditions for Determination of Tariff for Services Provided for Cargo Facility, Ground Handling and Supply of Fuel to the Aircraft) Guidelines, 2011 had been issued on 10th January 2011 under Section 15 of The Airports Economic Regulatory Authority of India Act, 2008 in order to determine tariffs for services provided at major airports in India..

As per the guidelines, IOSL being a service provider for supply of fuel to aircrafts at Mumbai International Airport Limited is required to submit to the authorities the tariff proposal for approval of AERA.

Mumbai International Airport Limited (MIAL), IndianOil Corporation Limited (IOCL), Bharat Petroleum Corporation Limited (BPCL) and Hindustan Petroleum Corporation Limited (HPCL) has formed a joint venture company known as Mumbai Aviation Fuel Farm Facility Private Limited (MAFFFL) for the purpose of handling aviation fuel activities at the Mumbai Airport. MIAL has signed a Concession Agreement with MAFFFL for handling the Aviation Fuel Activities including Into plane services at Mumbai Airport. Subsequently MAFFFL had floated a tender for selection of Into plane service providers. IndianOil Skytanking Limited (IOSL), as Into Plane Service Provider at Mumbai , was selected based on a competitive bidding process (Public Tender). Accordingly the Sub-concession Agreement was signed with MAFFFL on 31st October 2014 with a validity period of ten years.

As per Section AI.4 of the above guidelines, a 5 year Business Plan was prepared from the year 2014-15 till 2018-19, the first tariff year commencing from 2014-15.

THE COMPANY

 \bigcirc

IndianOil Skytanking Limited (IOSL), is a Joint Venture company promoted by Indian Oil Corporation Limited (IOCL), M/s Skytanking Holding GmbH, Germany (ST) and M/s IOT Infrastructure & Energy Services Limited (IOT) with equal equity participation of 1/3rd each.

IndianOil Skytanking Ltd (IOSL) incorporated in August 2006, is currently India's leading private company in the field of Operations and Maintenance of Fuel Farm and Into plane services. IOSL subsequently established into the business of commissioning of Hydrant systems.

IOSL commenced operations in the first Open Access Airport in the country at Bangalore Airport in the year 2008. IOSL is the first private company in India to be awarded by Bangalore International Airport Limited (BIAL) under a public private partnership to build, own, operate and transfer the fuel facility. IOSL has been efficiently carrying out the Fuel Farm Operatorship as well as the Into Plane Services since 24th May 2008 to the utmost satisfaction of all Oil Marketing Companies who are Suppliers of ATF Fuel as well as all their Airline Customers. With effect from 14th July 2010, IOSL operates the Fuel Farm and the Fuel Hydrant System that caters to T2 and T3 Terminals of New Delhi Indira Gandhi International Airport (IGIA). IOSL is also one of the Into Plane Service providers at New Delhi IGI Airport. In Delhi alone, IOSL handles more than 1,30,000 KL per month and refuels more than 230 aircrafts daily.

Today, the new T3 terminal at New Delhi's Indira Gandhi International Airport, is India's and South Asia's largest and most important aviation hub. T3, a state-of-theart and integrated terminal, is the world's eighth largest passenger terminal. IndianOil Skytanking Ltd (IOSL) is a proud partner in this world class creation and played its part in ensuring that the airport was operationally ready on due date by commissioning the largest Fuel Hydrant System of the country.

IOSL has an in-house design engineering team who have already exhibited their capabilities in Procurement of Dispensers and Refuellers for Delhi and Bangalore Airports and Commissioning of Delhi and Bangalore Fuel Hydrant Systems.

IOSL entered the Mumbai Airport in 2012 with the job of commissioning of modified Hydrant System at Mumbai Airport with the aim to get familiarized with the topography of Mumbai Airport. The commissioning of the modified Hydrant System was a huge challenge for IOSL. Further in January 2013, IOSL entered into a one year contract with IndianOil Corporation Ltd. for providing qualified manpower assistance for undertaking their refueling operations at Mumbai (Domestic) airport.

On 1st November 2013, IOSL took over the operations of IOCL Santacruz, Mumbai for carrying out the Into plane Refueling services.

In December 2013, IOSL bagged the O&M contract for 3 years through IOCL in operating the first Air Force Station at THOISE.

In April 2014, IOCL started the ITP services for HPCL at Mumbai for Domestic & International operations.

IOSL has established its financial credentials in the shortest span of time and has a corporate credit rating of CRISIL AA- and CARE AA-. IOSL is also an ISO 9001 & 14001 accredited organisation.

IOSL has also been engaged in the business of Technical Consultancy to Airport Engineering, Procurement and Construction (EPC) contractors, Airport Operators as well as in the Commissioning of Fuel Hydrant Lines at Airports. The T2 Apron Fuel Line Integration at Delhi, Hydrant Fuel Line commissioning for airport expansion works in Mumbai and Bangalore were undertaken by IOSL through in-house project management teams.

()

MANAGEMENT AND ORGANISATION

The Chairman of the Board of Directors of IOSL is the Director Marketing of Indian Oil Corporation Ltd.

The other Directors consist of:

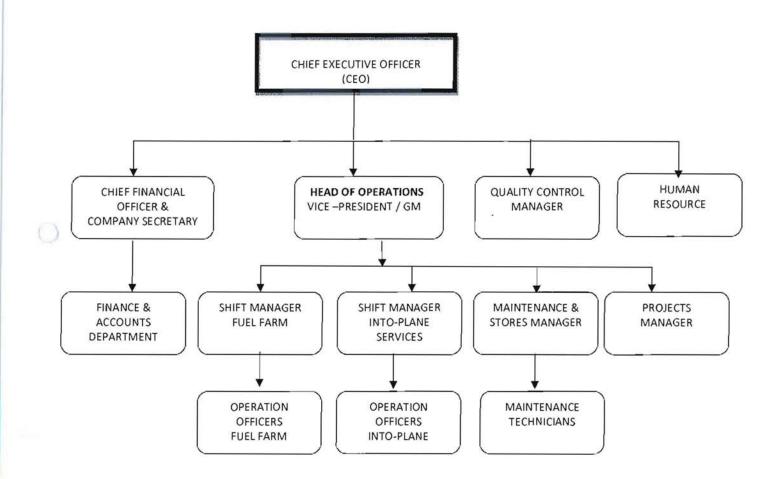

0

 \bigcirc

- Executive Director (Aviation), Indian Oil Corporation Ltd.,
- Managing Director, Skytanking Holding GmbH, Germany
- President, IOT Infrastructure & Energy Services Ltd.

The top management of the company consists of the Chief Executive Officer, Chief Financial Officer & Company Secretary and Vice President for Delhi and General Manager for Bangalore and Mumbai.

The management team is supported by Technical & Operations Managers, Shift Managers & Operations officers.

PRODUCTS AND SERVICES

IOSL is the first private company to start the Open Access Model in the Aviation Fuel Industry to provide operations support services to all the Suppliers. IOSL provides complete support in operations & management of Fuel Farm Operations, Into-Plane Services and in handling Aviation project engineering services. We also offer Technical consultancy and train man power in line with the JIG, IATA and DGCA requirements.

IOSL has proven and unmatched capabilities in single man refueling and efficient Fuel Farm operations with a reputation for competence and excellence in service with DGCA / other Statutory authorities, Oil companies, Airlines and Airports.

IOSL has also got significant experience in working on the following project areas:

- Design & construction of Fuel Farm Facilities
- Design of Hydrant fuelling
- · Commissioning of Fuel Hydrant system
- Design & Procurement of Aviation Equipment

IOSL provides services to all agencies as a trusted, professionally efficient and safe partner for any operator in the Aviation industry.

LOCATIONS

IOSL was incorporated and is headquartered in Bangalore. Its operations are at the airports in Bangalore and Delhi. The operations in the 2 cities can be summarized as follows:

| Delhi | Bangalore | Mumbai |
|---|---|---|
| | concession with BIAL. The | - |
| ITP contract for 10 years | ITP contract for 10 years | ITP contract for 10 years |
| New terminal T3 Fuel Hydrant System commissioned on 14 th July 2010 | Airport and Fuel Hydrant System opened on 24 th May 2008 | |
| Refuels 230 aircrafts on a daily basis | Refuels 140 aircrafts on a daily basis | Currently refuels 190 aircrafts on daily basis |

COMPETITION

For Into Plane Services, at Mumbai Airport there are 2 Into-Plane Service Providers selected through competitive bidding. The two Service Providers are IndianOil Skytanking Ltd and Bharat Star Services Pvt. Ltd.

As there are two Service Providers the service is deemed as **"Competitive"** as per AERA Guidelines.

MATERIALITY ASSESSMENT

Materiality Index (MIF)

- Fuel Throughput in Kiloliter at Mumbai Airport/Total Fuel Throughput in Kiloliter at major Airports x 100
- = 1370940 KL / 4926539 KL x 100
- = 27.83%

The MIF is more than 5% and hence the service is deemed as "**Material**" as per AERA Guidelines.

OPERATIONAL PARAMETERS

The key financial statements, viz. Balance Sheet, Profit and Loss Account and Cash Flow Statement have been included in the enclosures. The explanation to the preparation of such statements in discussed in detail below.

- Volume- The total volume of fuel at Mumbai Airport is estimated to be 15,26,390 KL for the 2014-15. However the financial workings, the volume for four month has been considered. IOSL's share of this total volume towards ITP services is expected to be about 60%. Considering the past trends the incremental volume has been considered as 1% YOY growth in Volume.
- 2. **Turnover-** The agreed rate with MAFFFL for 2014-15 being Rs.198 per KL and a 5% rate increase year on year has been taken into consideration in the projections.
- 3. **Asset-** IOSL owns Assets required for Refuelling of the Aircraft. IOSL owns 21 Hydrant Dispensers and 10 Aircraft Refuellers for taking care of refuelling operations at Mumbai (Both Domestic as well as International). These assets have been acquired from existing Oil Companies and also the new purchases have been considered in the workings.

- Depreciation The straight line method of depreciation has been adopted. The rates adopted are those as per Schedule II of The Companies Act, 2013.
- 5. **Capital Structure** The capital structure for projects at IOSL are undertaken a 70:30 ratio for debt and equity. After arriving at the total project cost the same has been segregated for debt and equity accordingly. The capital structure is summarized as follows:

Rs. In Lacs

| | | | | 1.5. |
|---------|---------|---------------|----------------------|---------|
| 2014-15 | 2015-16 | 2016-17 | 2017-18 | 2018-19 |
| 975.25 | 975.25 | 975.25 | 975.25 | 975.25 |
| 2275.58 | 2022.74 | 1769.90 | 1517.05 | 1264.21 |
| | 975.25 | 975.25 975.25 | 975.25 975.25 975.25 | |

- Concession fee to Airport Operator- As per the current terms the same has been assumed @6% of the revenue on accrual basis.
- 7. Weighted Average Cost of Capital-(WACC) It has been assumed that cost of debt will remain same during the years as a percentage of closing debt. Cost of equity has been calculated using the CAPM model. Since IOSL is not a listed company, beta has been assumed as the average of similar players in the market. The WACC works out to 14.92%.
- Cost of Debt- The average interest for the current year on bank loan to be utilised for financing the Mumbai-ITP operations has been 11.00%. The projected calculations have been made assumed considering the same rate over a period of 5 years.
- 9. Cost of Equity-As given in the guidelines, cost of equity has been arrived at using the CAPM approach. IOSL not being a listed company, the beta values for similar listed companies were taken into consideration for the purpose of calculation. The companies that were used for this purpose are Hindustan Petroleum Corporation Ltd., Indian Oil Corporation Ltd. and Bharat Petroleum Corporation Ltd. The beta values of such companies were however not readily available on the stock exchange websites and the same were obtained through secondary sources as was available during October/November 2014.
- 10. **Risk free Rate-** The Benchmark Yield on 10 year Government of India Bonds was adopted.

D

()

- 11. **Return on Market Portfolio-** The average of the SENSEX values (closing less opening) for the last 10 years was adopted.
- 12. Operating costs-Items considered for operating costs are those based on past trend of the company. All such items of cost have been escalated at the normal past inflation rate of 5.00% while salaries have been escalated by 12%. The increase of salaries by a higher percentage is based on past trends and industry experience.

FINANCIALS

 \bigcirc

The balance sheet, profit and loss account and cash flow for the period 2014-15 to 2018-19 have been submitted as part of the workings.

Form F1 (a): Historical and Proposed Aggregate Revenue Requirement (ref: AI.2 of Appendix I)

| SI.N. | Aggregate Revenue Requirement | Last available audited year | Financial year before tariff year | Tariff Year | Tariff Year | Tariff Year | Tariff Year | Tariff Year |

It may please be noted that the above tariff rates and applicable escalation has been finalised through competitive bidding process by way of a Public Tender invited by MAFFFL and the same has been documented in the Sub-concession Agreement executed between MAFFFL and us. The User Agreement executed between Indian Oil Corporation and us was also a part of the Public Tender invited by MAFFFL.

In view of above submission, we request for kind approval of the Authority at the earliest.

Thanking you,

Yours truly, For Indian Oil Skytanking Limited,

(T. S. Dupare) 15 11 2014 Chlef Executive Officer
