Dear Sir,

This has reference to the subject CP published by the Authority, in the matter of determination of aeronautical tariffs for Ahmedabad International Airport Limited (AIAL) who is an operator of SVPIA for the Third Control Period beginning from 1<sup>st</sup> April 2021 to 31<sup>st</sup> March 2026.

At the outset, AIAL and Adani group would like to appreciate the hard work put in by the Authority while conducting the due diligence of our MYTP for the TCP and releasing the CP of AIAL in a timebound manner.

AIAL would be submitting detailed responses w.r.t the proposals put forth by the Authority in the CP as part of the stakeholders consultation process within the stipulated period. We request Authority to kindly consider our submissions/responses while finalizing the Aggregate Revenue Requirement (ARR) for the TCP and provide AIAL an opportunity to revise the ATP, prior to issuing final order based on the final decision of the Authority.

After a detailed planning, with the vision to transform Ahmedabad as a gateway to western India, we hereby submit ATP for SVPIA as under:-

1. The effective date for the revised tariff implementation has been considered as 1<sup>st</sup> February 2023 for the purpose of ATP.
2. The rate cards proposed by AIAL are provided as :-
  - a. **Annexure A** - Landing and Parking, User Development Fees (UDF)
  - b. **Annexure B** - Domestic and International cargo handling services
  - c. **Annexure C** - Integrated Fuel Storage and Into Plane (ITP) Services
3. While calculating the Target revenues in present value terms and to propose the new tariff card, AIAL has appropriately assumed the recovery of various revenue streams till 31<sup>st</sup> Jan 2023 as per existing applicable tariff cards as approved by the Authority time to time as follows :-
  - a. Order No. 52/2020-21 dated 06<sup>th</sup> November 2020 approving the levy of the Aeronautical Charges and its extension from time to time.

  - c. Order No. 16/2022-23 dated 01<sup>st</sup> August 2022 approved for Ad-hoc Tariff for Integrated Fuel Storage and Into Plane (ITP) Services to be provided by AIAL at SVPIA
4. AIAL has considered the billable traffic (**refer Annexure D for calculation of billable traffic**) which is derived based on the total traffic as considered in the CP.
  5. As directed by the Authority under point 7.3.82 and 7.3.135 of CP, AIAL has considered the future projection of revenues from Hangers & Annex Building and GSE Maintenance Facility while arriving at the above rate card (**refer Annexure E**), in addition to other aeronautical revenues streams like CUTE and Ground Handling
  6. We hereby request AERA to kindly allow True-Up of the shortfall in the next control period along with necessary carrying cost, if any.

While, the recovery trend and future path of the traffic is robust, one cannot predict the unexpected events like COVID-19, which can be detrimental to aviation ecosystem as whole. We would request the Authority to provide us an opportunity at the end of March-2024 to revise the ATP (without redoing the entire tariff determination process) so as to achieve the final ARR determined for the TCP.

Thanking You,

Yours Sincerely,
