**Subject:** Consultation Paper in the matter of termination of fuel infrastructure fee for BPCL Kannur Fuel Farm Pvt. Ltd.

Sir,

Please refer to your communication dated 8.12.2021 on the subject noted above. In this regard, our comments are as under:

- i. Current charges at BPCL Kannur Fuel Farm Pvt. Ltd. are Rs. 1846/- KL till 31.3.21, which they want it to be hiked to Rs. 4996/-KL from 1.4.21 to 31.3.23.
- ii. They are citing to AERA , about Kannur's Fuel Farm losses due to under-recoveries and less passenger inflow due to Covid. They presented their CAPEX and financials to support their claim.
- iii. However, AERA does not wants to pass on the entire burden of under-recovery on stakeholders now, so for FY 2021-22, they have proposed existing rates to continue. For FY 2022-23, they have proposed increased rate of Rs. 2577/KL.
- iv. Any increase of FIF, will proportionately increase ATF rates also at Kannur and will affect all stakeholders including Air India .
