Sir,

With reference to the comments of the stakeholders viz, Federation of Indian Airlines and The Air Cargo Agents association of India , we would like to explain our points as hereunder.

You may please note that no revision of tariff had been made during 2013 to 2018 in Trivandrum Air cargo Complex and only a very nominal increase was made for the year 2018-19. Even the revised tariff as approved by AERA has negotiated by the Trade and the reduced rate is applicable for the last two years.

The rate we proposed is for the period 2020-21 with a nominal increase to the tariff of 2018-19. The reasons for the proposed revision is due to the following reasons.

- 1 KSIE is installing new x-ray machine , ETD machine and other allied items in the export Terminals of KSIE at Trivandrum.
- 2 KSIE is in the process of getting Regulated Agent Status as prescribed by BCAS and for the same also earlier mentioned infrastructure facilities are needed.
- 3 Moreover, x-ray screeners are to be engaged by KSIE in addition to the necessary induction of staff.
- 4 Increase in wages and salary to the staff is another reason for the proposed increase in tariff.
- 5 Increase in the cost of other utilities, fuel, consumables, repair and maintenance charges of equipments etc also cause for the proposed enhancement.

Considering all the above , it is requested that the proposal of KSIE for the revised tariff for its Trivandrum Air cargo Operations may be considered favourably.

Thankyou,

Jayaraj P V
